Board Policy 3.1.4

Homework

Homework assignments should complement the school instruction. The assignments should develop student responsibility, good study habits, and organizational skills. Homework assignments should provide practice and reinforcement of skills already presented by the teacher, broaden areas of interest through enrichment, provide an opportunity for parents to know their child is studying, and encourage parent and child interaction.

Parents with questions or concerns regarding their child's homework assignments and/or a particular teacher's homework assignment practices should contact the teacher directly.
