Board Policy 3.2.4

Textbooks/Instructional Supplies

It is responsibility of the Board to adopt all textbooks used as part of the educational program of this School.

The Executive Director or his/her designee shall select and recommend for adoption by the Board all textbooks and supplementary instructional materials. No adoption or change of a textbook shall be made without his/her recommendation except by a two-thirds vote of the Board. In the preparation for the recommendation of such courses of study and in the selection of such textbooks, the Executive Director shall have the cooperation of any and all special committees of teachers, supervisors, principals, and representatives of interested organizations.

It shall be the policy of the Board to supply each teaching staff member and student with the curriculum and classroom materials that are deemed necessary for the implementation of the approved program. Exceptions to this provision shall include personal items that may be necessary for successful achievement, such as pens and pencils, book bags, notebooks/binders, personal attire and other such items, which shall be at the expense of the parents/students.
